WHY CHOOSE SPORTSTRAP

In 2009, SportStrap commenced trading in Ballarat Victoria, and since then has managed to expand into a National business, providing service throughout regional and capital Australia.

This rapid growth is due to 3 key business principles that are never compromised:

- **HIGH QUALITY PRODUCT**
- **SERVICE** that is second to none
- **LOW PRICES**

SPONSORSHIP PROGRAM

In 2026, Sport Strap will continue to support clubs by providing the highest quality products at the lowest price. We estimate that the saving for 2026 will be an average of 40% compared to our major competitors.

Further to the financial savings SportStrap has introduced an achievable and practical sponsorship program, which we hope will help support clubs throughout 2026.

Our program will allow your club to receive incentives at multiple stages throughout the year, as opposed to our competitors that only provide one.

8 REASONS WHY TO CHOOSE THE SPORTSTRAP SPONSORSHIP PROGRAM

1. The SportStrap Sponsorship program **rewards all clubs**. Not just on big spend at the beginning of season.
2. **No Up-front \$2-3K spend.**
3. **Clubs can tailor Sponsorship credit** on products that are needed (not just a limited list of products that the club already has).
4. SportStrap prices are an average of **30% below major competitors.**
5. SportStrap offers **peace of mind with quality products, low prices and a 7-day money back guarantee.**
6. SportStrap offers **free shipping Australia wide on orders over \$500** (Orders are processed and shipped within 12-24hrs).
7. **No minimum order size.**
8. **20% longer rolls (5.5m long) in our new EAB and Cotton Stretch Tape range... at no extra cost.**

STOP MUSCLE CRAMP?

As used by

WHAT CAUSES A MUSCLE CRAMP? A muscle cramp is generally caused by the body's response to an electrolyte imbalance by sending a neurological message that causes the muscle to engage. The "hyper-engagement" of the muscle is what is commonly referred to as a muscle cramp

HOW PICKLE JUICE® STOPS MUSCLE CRAMPS: Pickle Juice Sport and Extra Strength Pickle Juice Shots work quicker than just about anything else on the market because in addition to the traditional electrolyte therapy, Pickle Juice attacks the neurological message that is at the root cause of the cramp with Neural Inhibitors™

Neural Inhibitors™: The primary ingredients that drive the flavour profile of Pickle Juice® function to block the "cramp" message from the brain to the muscle

Electrolytes: Pickle Juice contains 10X the Electrolytes™ as most traditional sports drinks to promote hydration

WHY PICKLE JUICE SPORT/SHOT?

- No need for refrigeration (2 years shelf life)
- Fortified with potassium, zinc, Vitamin C & E
- Portable
- Aids in hydration (sodium helps retain water)
- Replenish Electrolytes – contains 10 X as many as most sports drinks
- 100% natural purpose built isotonic beverage
